Dear Parents and Guardians,

The Centerville Community School District Nurses would like to take this opportunity to thank you for your patience and cooperation as we return from winter break. While 2020 is behind us, we continue to ask that you remain diligent in practicing the same precautions that you have grown accustomed to over the last several months. This includes wearing a mask; washing your hands with soap and water for at least 20 seconds or using hand sanitizer as directed; and watching your distance, preferably at a minimum of 6 feet, in social settings. In addition to these measures, we'd like to remind you to keep children home when they aren't feeling well and maintain strong communication with school staff and/or nurses with any health updates and pending test results, etc.

With flu and cold season on the horizon, we'd also like to remind you of a few other reasons to keep your child out of school as we get back into the swing of things.

- ~oral temperature of 100 degrees F or greater (without fever-reducing medications)
- ~vomiting and/or diarrhea
- ~unexplained skin eruptions or rashes
- ~swelling, redness, discomfort, drainage of eyes
- ~any infectious illness or questionable health concern

Please remember that your child cannot return to school until he/she is fever free for 24 hours without the use of fever-reducing medication and should also remain vomit/diarrhea free for 24 hours prior to returning.

We look forward to continuing to care for your students, please feel free to contact us with any questions or concerns using any of the methods listed below.

Sincerely,
